

Fire Poi Braided Rope

- Fire poi braided rope is 100% para-aramid based that is specifically designed for use with paraffin solvents and oils.
- It is extremely resistant to both heat and friction and capable of absorbing large quantities of fuel.
- The braid has been developed to minimise fraying and extend the life time of the tape. If used properly the wick should last you several hundred burns if not more.
- Fire Poi braided ropes are even, homogeneous and have a very smooth surface.
- Rated to **250°C**, after which the fibre begins to char and carbonise.
- It does not drip, melt, combust or flame.

Applications

- Used for wicking in Fire Poi.
